Decision Tree

```
if you have developed in the browser
    if you are a git user
        git clone
        make a github fork; make pull requests;
    else if you have a dropbox account
        dropbox.com/adfasdfasdfasdf
    else
        a thumb drive is floating around
    end
else
    jsfiddle links 1n
end
```

[1]Chrome might have funny behavior if you don't serve up d3 nact as

Ready to Get Started?

Canonical Test

- Open up web developer tools
- Go to console
- Enter d3 and you should see 'object' as the response
